- xi. Chartered Hajj Bima with profit;
- xii. Chartered-Denmohar Bima with profit;
- xiii. Chartered Group Endowment Insurance Plan without profit;
- xiv. Chartered Group Term Insurance Plan without profit;
- xv. Chartered-Manpower Insurance Plan;
- xvi. Chartered Supplementary Group Health Insurance Plan; and
- xvii. Chartered Critical Illness Protection Plan Chartered Surokkha.

2 Significant Accounting Policies

2.1 Basis of preparation

The preparation and presentation of these financial statements and related disclosures of information have been made as per International Financial Reporting Standards (IFRSs) and the Insurance Act, 2010 and the Insurance Development and Regulatory Authority Act, 2010. Until additional guidance is provided under the Insurance Act, 2010, requirements as to the disclosure of the Balance Sheet have been made by the guidelines set forth in Part I and Form A of Part II of the First Schedule and the Revenue Accounts have been presented per Part III and Form TP of the Third Schedule of the Insurance Act, 1938. In case the requirements of the Insurance Act, 2010 and related guidance of the Insurance Act, 1938 differ from those of IFRS, the related regulatory guidelines have been used. The financial statements have been prepared under historical cost convention, except for investments in unit certificates and shares that have been measured at fair value.

2.2 The effect of judgments, estimates and assumptions

The preparation of the Company's financial statements requires management to make judgments, estimates, and assumptions that affect the reported revenues and expenses, assets and liabilities, and the accompanying disclosures. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future reporting periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are insurance contract liabilities, gratuity obligation, and taxes.

Material judgment is required in determining the choice of assumptions. Assumptions in use are based on experience, current internal data, external market indices, and benchmarks which reflect current observable market prices and other published information. Assumptions and prudent estimates are made at the date of valuation. Assumptions are further evaluated continuously in order to ensure realistic and reasonable valuation. The key assumptions to which the estimation is particularly sensitive are mortality and morbidity rates, longevity, investment return, discount rate, etc.

2.3 Going concern

In the preparation of the financial statements, management made an assessment of the entity's ability to continue as a going concern. The Company prepared its financial statements on a going concern basis. As per the requirement of Para 25 of IAS 1: "Presentation of Financial Statements", the management assessed if there were any conditions or events existed that might cause significant doubt on the Company's ability to continue as a going concern. Based on these assessments, management concluded that there were no such significant conditions or events that management knew existed on the reporting date.

2.4 Statement of compliance

These financial statements have been prepared in compliance with International Financial Reporting Standards (IFRSs), the Companies Act, 1994, the Insurance Act, 2010, Insurance Rules, 1958, Income Tax Act, 2023, the Securities and Exchange Rules, 2020 and other applicable laws and regulations.

2.5 Components of the financial statements

The Financial Statements include the following components:

- i. Statement of Financial Position;
- ii. Revenue Account;
- iii. Cash Flow Statement;
- iv. Statement of Life Insurance Fund;
- v. Statement of Changes in Shareholders' Equity;
- vi. Statement of Life Insurance Fund;
- vii. Classified Summary of Assets (Form AA); and
- viii. Notes to the Financial Statements.

2.6 Reporting period

This financial statement is prepared to cover one year period the year from 01 January 2024 to 30 Septemebr 2024, (comparative period 01 January 2023 to 30 September 2023).

2.7 Life Insurance Fund

As per sections 26 and 27 of Insurance Act 2010, the Life Insurance Fund of the Company is segregated into Participating Life Insurance Fund and Non-participating Life Insurance Fund. Participating Life Insurance Fund includes the surplus and policy liabilities of all participating life insurance policies along with the supplementary contract. The Non-participating Life Insurance Fund comprises the following sub-funds:

A. Non-participating Life Policy Fund: This includes Chartered Endowment Plan-2, Chartered Money Back Plan, and Chartered Pension Plan.

B. Non-participating Group Policy Fund: This includes (i) Group Life (ii) Group Health Insurance (iii) Group Manpower

2.8 Portfolio Allocation

Assets, liabilities, income, and expenditures directly attributable to participating or non-participating policies are shown under the respective portfolio. For a particular assets, liabilities, income, or expenditure related to two or more portfolios are apportioned whenever required, among the funds on a fair and equitable basis, as disclosed in respective notes.

2.9 Investment

Investments are made and accounted as per the provisions of the Insurance Act, Rules and Circulars, and Notifications issued by the IDRA from time to time.

2.10 Fixed Assets

A. Valuation/recognition of fixed assets

All fixed assets are stated at cost less accumulated depreciation as per IAS-16: "Property, Plant and Equipment". The acquisition cost of an asset comprises its purchase price and any directly attributable cost related to bringing the assets to its working condition for its intended use, including inward freight duties and non-refundable tax.

Normal expenditures incurred after the assets have been put into expenses of management such as repairs and maintenance other than major replacement, renewals, or betterment of the assets are charged off as revenue expenditure in the period in which it incurs.

B. Depreciation on property, plant and equipment

Tangible assets

Depreciation is charged on fixed assets and has been calculated on all assets using the reducing balance method at various rates depending on the class of assets. Depreciation is charged in addition to fixed assets from the month in which the assets are ready for use while no depreciation is charged for the month of retirement/ disposal.

The management of the Company has decided to change the estimated life (depreciation rate) of the various assets

considering the Income Tax Act 2023. Accordingly, depreciation has been calculated considering the new estimation and adjusted in the financial statements as required by IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors".

Estimated useful lives of property, plant and equipment are as under:

Categories of assets	Rate of depreciation	
	2024	2023
Furniture & Fixture	10%	10%
Office Decoration & Design	10%	10%
Office Equipment	10%	10%
Software	20%	20%
Motor car & Motor cycle	10%	10%

The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the assets and is recognized in the Revenue Account.

2.11 Intangible assets

Expenditure incurred on major application software and their customization or future development is recognized as an intangible asset. The same is capitalized under intangible assets if such expenditure results in a benefit of an enduring nature. Intangible asset comprises system software which is stated at the cost of acquisition, including any cost attributable for bringing the same to its working condition less accumulated amortization, amortization losses, if any, and expenses on software for support and maintenance payable annually are charged to the Life Revenue Account.

2.12 Impairment of assets

Each year the management assesses whether there is any indication that the assets may be impaired in accordance with IAS-36: "Impairment of Assets" considering the current economic situation. There is no such indication exists for the year 2023.

2.13 Lease

The Company adopted IFRS-16: "Lease" and used the modified retrospective approach where the Company measured the lease liability at the present value of the remaining lease payments, discounted it by using the Company's incremental borrowing rate at the date of initial application, and recognized a right-of-use asset at the date of initial application on a lease-by-lease basis.

2.14 Right-of-use assets

The Company recognizes the right-of-use assets at the date of initial application of IFRS 16. Right-of-use assets are measured at cost, less any accumulated depreciation, and adjusted for any re-measurement of lease liabilities. Right-of-use assets are depreciated on a straight-line basis over the lease term. The right-of-use assets are presented under property, plant, and equipment.

2.15 Lease liabilities

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of the lease payment to be made over the lease term using the incremental borrowing rates at the date of initial application. Lease liabilities are measured by increasing the carrying amount to reflect interest on the lease liability, and reducing the carrying amount to reflect the lease payments. Advance paid in connection with the lease agreement is considered as on the installment of lease payment. Interest on lease liability in each period during the lease term shall be the amount that produces a constant periodic amount of interest over the lease period.

2.16 Cash and cash equivalents

Cash and bank balances in the balance sheet comprise cash at banks and on hand and short-term deposits of less than one month maturity, which are subject to an insignificant risk of changes in value. For the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits as defined above, which form an integral part of the Company's day to day cash management.

2.17 Revenue recognition

The revenue is recognized after satisfying all the conditions for revenue recognition as provided by IFRS-15 "Revenue" in compliance with IFRS-4 "Insurance Contract". Detailed income-wise policy for revenue recognition is as follows:

1. Premium income

The premium is income for the insurance company. It also represents a liability, as the insurer must provide coverage for claims are being made against the policy. Life insurance pays out for any death due to illness, accident, or natural causes.

i. Individual life policies

(a) Individual life policies for the first year, renewal & single insurance premiums are recognized once related policies are issued afterward all policies become auto-renewal within the period of maturity.

(b) Outstanding premium/ premium receivable as at 31st December 2023 shown in financial statements have remained within the grace period as per rules which have also been collected/realized subsequently after the balance sheet date.

(c) Uncollected premiums from lapsed policies have not been recognized as income or accounted for until such policies are revived.

ii. Group insurance premium

With group life insurance, the employer or entities purchasing the policy for its staff or members retain the master contract. Employees who elect coverage through the group policy usually receive a certificate of coverage, which is needed to provide to a subsequent insurance Company if an individual leaves the Company or organization and terminates their coverage.

Claims have been admitted under the coverage of group insurance policies after receiving the premium. Whereas provision made for outstanding/receivable premium during the year does not expire the grace period as well as subsequently the said premium receivable has been realized after the balance sheet date.

2. Income from investment

Profit on different investments is recognized on an accrual basis as per IFRS-15 "Revenue". Portfolio gain on investments in shares is recognized as income and credited to investment income in the life revenue account as per IFRS-9 "Financial Instruments: Recognition". Capital gain is recognized when it is realized and recognized as income and credited to investment income in the Life Revenue Account as per IFRS-9 "Financial Instruments: Recognition".

2.18 Policy loan

Policy loans are extended to policyholders up to 90% of the surrender value of their respective policies, provided the policies have been force for at least two years. Interest on these policy loans is accounted for on a cash receipt basis.

2.19 Reinsurance

The Company has a reinsurance arrangement with Trust International Insurance & Reigns Co., established since the inception of the Company. The reinsurance strategy is designed to manage risk and protect against large losses. The net retention levels for the Company are as follows:

1. Individual life: BDT 5 lacs per policy.
2. Group life: BDT 10 lacs per person of risk.

Reinsurance premiums are recorded as expenses evenly over the period of the reinsurance contract and are offset against the premium income of the respective year. Any commissions received on reinsurance premiums ceded are recognized as income and offset against commissions paid in the period the insurance premium is ceded.

i. Reinsurance premium

Reinsurance premium is recognized concurrently with the recognition of premium income, ensuring accurate matching of expenses and revenues within the financial period. The process aligns with the terms and conditions outlined in the reinsurance treaties. For the financial year ended 30 Septemebr 2024, the provisional amount payable to the reinsurer (Trust International Insurance & Reigns Co.) has been estimated based on the best available information and accounted for accordingly.

ii. Reinsurance claims

Claims recoveries from the reinsurer are recognized at the same time as the claims are reported, ensuring that the financial statements reflect the true economic impact of claims promptly. This approach adheres to the terms and conditions of the reinsurance arrangements, facilitating accurate and timely recording of claims recoveries.

2.20 Claims cost

Claims cost consists of the policy benefit amount and claims settlement costs, where applicable. Death and rider claims are accounted for when the decision to pay is made. Maturity benefits are accounted for when they become due. The amount receivable from reinsurance is accounted for in the same period as the related claim and is deducted from the total claims cost.

Claims including survival benefits claims and annuities, are accounted for when they are due for payment. Death claims and all other claims are accounted for when they are due to be paid. Provision for outstanding death claims has been made based on the due-to-pay amount for death claims received up to 30 September 2024.

2.21 Premium deposit

The premium deposit represents the premium received but the risk has not been accepted because of the pending underwriting decision for different causes as of 30 September 2024.

2.22 Taxation

Provision for taxation has been made on the basis of Actuarial Valuation and best judgment of the management in accordance with the Income Tax Act, 2023. The Company does not provide for deferred taxation since deferred tax have no effect on assets and liabilities.

2.23 Employment benefits

The Company offers several benefits plans, which include a contributory provident fund and gratuity which have been accounted for in accordance with the applicable provision of IAS -19: "Employee Benefits". The basis for enumerating the benefits of the schemes operated by the Company is outlined below.

2.24 Contributory Provident Fund

The Company operates a contributory provident fund for its permanent employees. The fund is administrated separately by a board of trustees and is funded by equal contributions from the Company and the employees.

2.25 Gratuity (Defined benefit plan - no actuarial valuation)

Employees of the Company who have served for 10 years or more are entitled to receive gratuity benefits at rates determined by the service rules of the fund. Currently, gratuity is paid at the time of final settlement to eligible employees.

2.26 Provision for liabilities

According to IAS-37: "Provision, Contingent Liabilities, and Contingent Assets" the Company recognizes the provision in the Balance Sheet when the Company has a legal or constructive obligation as a result of a past event and an outflow of economic benefits will probably be required to settle the obligation.

2.27 Related party transactions

The related party is the party who has significant influence in the management process and cost, significant influence in the Company's affairs, and the management duly identifies the party is related to the Company and discloses the transactions of the related party as per IAS-24: "Related Party Disclosures". There were few transactions made in the previous & current year referred to as related party transactions under IAS-24 as adopted by ICAB & those transactions have been approved by the Board of Directors. Details of the related parties' transactions have been stated in Annexure-A.

2.28 Events after the reporting period

All material events after the reporting period are considered and where necessary disclosed/adjusted in accordance with IAS 10: "Events After the Reporting Period".

2.29 Risk minimization strategies

Risk and uncertainties for use of estimate in preparation of Financial Statements:

The preparation of Financial Statements in conformity with International Financial Reporting Standards (IFRSs) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the Financial Statements and revenues and expenses during the period report. Actual results could differ from those estimates. Estimates are used for accounting for certain items such as long-term contracts, depreciation and amortization, employees' benefits plans, taxes, reserves, and contingencies.

i. Insurance Risk

The principal risk the Company faces under insurance contracts is that the actual claims and benefit payments or the timing thereof, differ from expectations. This is influenced by the frequency of claims, severity of claims, actual benefits paid and subsequent development of long-term claims. Therefore, the objective of the Company is to ensure that sufficient reserves are available to cover these liabilities. The risk exposure is mitigated by diversification across a large portfolio of insurance contracts. The variability of risks is also improved by careful selection and implementation of underwriting strategy guidelines, as well as the use of reinsurance arrangements.

ii. Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss to the other party by failing to discharge an obligation. The Company's credit risk policy sets out the assessment and determination of what constitutes credit risk for the Company. Compliance with the policy is monitored and exposures are regularly reported to the Company's management. The counterparty exposure and credit risk profile are regularly reviewed for pertinence and for changes in the risk environment.

iii. Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. The Company maintains a portfolio of highly marketable and diverse assets that can be easily liquidated in the event of an unforeseen interruption of cash flow. The Company also closely monitors maturity profile of its assets and liabilities.

iv. Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: foreign exchange risk (currency risk), market interest rates (interest rate risk) and price risk. However, only part of market risk that can have significant impact for the Company is interest rate risk.

2.30 Valuation of policy liabilities

As per section 30 of the Insurance Act, 2010, every insurer carrying on a life Insurance business shall, at least once every year cause an investigation to be made by the actuary into the financial condition of the life insurance business carried on by it, including a valuation of its liabilities in such manner as may be prescribed by regulations and shall cause an abstract of the actuarial report to be made in such form and manner as may be prescribed in regulations. The Company made such actuarial valuation in each year in accordance with the act and regulation of IDRA.

03 General

- i. Figures appearing in the financial statements have been rounded off to the nearest Taka.
- ii. Previous year's figures have been re-arranged wherever necessary to conform to current year's presentation.
